PROJECTS

Schedulelearn Project | <https://schedulelearn.com/>

- Helped Design a website in Python and Django with friends allowing users to schedule lessons as students or accept lessons as tutors.
- Re-Designed the website making it mobile-friendly using HTML, CSS, jQuery & Bootstrap. More details in this [GitHub repo](#)

Personal Website | <https://nppatel97.github.io/personal-website/>

- Designed personal portfolio website using React16 and JS (ES6) to learn and practice React.js. More details on this and other projects on GitHub.

EXPERIENCE

Freelance Web Developer | Jan 2019 – Present

- Designed and Developed websites for clients based on their requirements and provided an excellent website UI/UX.
- Also provided exceptional customer service/satisfaction by constantly maintaining enhancing the website as per their needs

Client Websites:

- <https://www.murrayvillephysio.ca/> | HTML, CSS, jQuery & Bootstrap

McDonald's Graveyard Crew Member | Feb 2019 – Present

- Improved customer service skills by assisting customers by delivering their order accurately and efficiently under pressure.
- Improved teamwork and management skills by working as a team member in a small staff to keep the restaurant clean, stocked and ready for service.
